

UV Filtration

V2ecton

Aquarium UV Steriliser manufactured from impact resistant, translucent polycarbonate.

- Opposing inlet and outlet for easy installation and connection to the water supply.
- Four stage hosetails for flexible hose from 1/2" to 1 1/4", held in place with screw on collars for easy removal when servicing and maintaining unit.
- UV shield to prevent direct viewing of the UV lamp.
- 90° pivoting clear plastic elbow, for easier and more versatile hose management.
- Compact, rigid pipe adaptors, for connection to 32mm, 40mm or 1" rigid pipe, are available.
