QUARTZ UV-C LAMP

Ultra High Performance Quartz UV-C Lamps

The **next evolution of UV-C lamp technology** in the aquatics hobby

Manufactured under the **strictest quality control** conditions

Robust lamp ends

Last 50% longer than the standard lamps

Improved UV-C transmittance

Maintained output for up to 12000 hours (85% output)

Ideal for all models of **POND CLARIFIERS** and UV aquarium sterilisers

Every lamp comes packaged in a box that can either be hung or placed flat, featuring a box-end label that's easy to read.

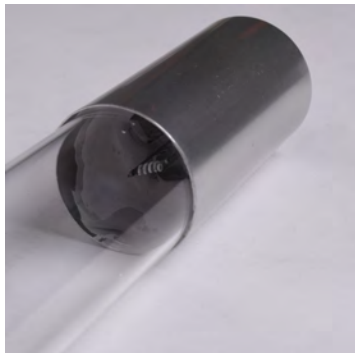

Hyperion range

Code	6053-HP	6054-HP	6055-HP	6056-HP
Description	Hyperion 15w	Hyperion 25w	Hyperion 30w	Hyperion 55w
Wattage	15w	25w	30w	55w
Lamp Diam.	T8	T8	T8	T8
Cap fitting	G13	G13	G13	G13

Designed for pond and aquaria

Following two years of extensive research, development and testing we are excited to introduce our new range of Hyperion Ultra High Performance Quartz UV-C Lamps.

Manufactured under the strictest quality control conditions, the Hyperion UV-C lamps last 50% longer than the standard, offering improved UV-C transmittance and maintained output for up to 12000 hours [85% output].

**LASTS
50% LONGER**
than standard UV-C lamps
**12000hr to 85%
OUTPUT**

Our Hyperion UV-C lamps are a direct replacement for other 15, 25, 30 & 55W linear UV-C lamps and can be used in ALL BRANDS of UV Pond Clarifiers and Aquarium Sterilisers.

We have even thought about the lamp ends – making them more robust and ensuring that they protect the plastics at the ends of the clarifier/steriliser bodies – only delivering UV-C where it hits the water to be treated.
