

# Sand and Gravel

# **EcoSand**

### Sustainable alternative to real coral reef sand.

- Made exclusively for Tropical Marine Centre from recovered, sea-washed British sea shells.
- Offers excellent buffering capacity.
- No dyes or bleach used during production.
- Low carbon footprint.
- Perfect for marine and reef aquariums as well as high pH freshwater tanks.
- Available in Coarse and Fine Grades.
- 15kg sacks or handy 4kg bags.

## **EcoSand**
