

Media Reactors

Reef Filter

High performance, advanced multi-purpose filter.

- CNC precision engineered from the highest quality materials.
- Suitable for various media types such as phosphate-removing media, carbon and nitrate/phosphate removing pellets.
- Compact, space-saving design with integral pump.
- Accessible parts for easy cleaning.
- High performance pump.
- Designed for reef aquaria.

Reef Filter

Code	Product	Suitable for (l)	Power (w)	Voltage (v)	Media Volume (l)	Dimensions (mm)	Pump
9614	Reef Filter Nano 50 White	aquariums up to 50l	3.8	230/240	100ml*	85 x 55 x 295	SICCE MI Mouse
